No Such Values Can be Found Elsewhere

COMPARE THE PRICES! COMPARE THE QUALITIES

This is just what we want you to do. If our prices are not less than you can buy them for elsewhere, don't trade with us. We don't want your money unless we can give you value received.

All best Zephyrs, 5c. All best Macrame Twine, 10c. Print of the Loom Muslins, 8 1-3c. Lonsdale, 6½c. We want you to see it. Our 50c Black Gros Grain Silk, worth $1 25. Our 50c Satins. Our 98c all-silk Rhadames. Our big line of 75c Dress Goods; they are worth $1 25, $1 50, $1 75, $2 and $2 25. We want you to see our 100-yard spool of silk for 5c. Our Ball's Corset for 89c. Our ounce package of Embroidery Silk for 40c, worth $1 50.

We Want You to Examine Our Handkerchief Department.

Compare the Prices. Compare the Qualities.

Our prices cannot be matched—3c, 5c, 6c, 8c, 9c, 11c and on up.

VISIT OUR BIG BOOK DEPARTMENT.

We guarantee a saving of one-third, and we believe we can save you fully 50 per cent. All dollar books 59c. All $1 25 books 79c. All $5 books $2 49. All $8 books $3 75. This is no smide book department. It is the largest in the city. Largest in number. Largest in variety. Autograph Albums from 10c up. Scrap Albums from the cheapest to the finest.

VISIT OUR BIG BABY SHOW.

10,000 dolls from 5c to $5. Dolls of every kind. Dolls that can laugh and talk. Dolls that can cry and walk.

COMPARE THE PRICES IN OUR CLOAK DEPARTMENT.

$3 98, $5, $6 50, $7 50 and on up. Our $6 50 cloak contains 6 yards of goods worth $1 50 per yard, or $9 alone for the cost of the goods, to say nothing of the making and trimming. We bought them as a job, and they are without doubt the best values in the city.

COMPARE THE PRICES IN OUR GLOVE DEPARTMENT.

A nice 50c Lisle Glove for 19c. A five-button Centemeri cut kid glove for $1 25, and we fit them to your hand.

Hammering Down the Prices all over the house. In every department the cry is hammering down the prices. You cannot match our prices on comforts and blankets. You have our word for it. Compare the prices. Compare the qualities. A good all-linen napkin for 5c. A 20c quality of crash for 12½c. A regular 40c towel for 25c, and the cheapest line of table linens in the city.

Do not fail to visit us for underwear, positively the cheapest. Do not fail to visit us for gents' neckwear, positively the lowest. A regular dollar tie for 49c.

IT IS NOT THE OLD CRY

OVERSTOCKED

IT IS THE ONE CONTINUED CRY OF

THE PEOPLE'S STORE

TO ITS BUYERS.

YOU ARE OVERSTOCKING US

And their answers are—"We can't help it. We can't stand by and see goods slaughtered without taking some of the plums for our pie."

In computed figures we have $61,459 56 more merchandise than is necessary for us to transact our business with. In other words that is called dead stock. We invite our patrons to look at the stock on top of our shelves, under our counters, in our galleries, and in our basement of 46x100 feet, and see if this is truth or falsehood.

PLUMS OUR BUYERS BOUGHT FOR THIS WEEK

22 pieces all wool bison cloth, the quality that is represented to be worth $2 50 per yard, and sold as a great bargain by a celebrated bargain house of this city at 75c; all we ever asked for it was 59c.

22 pieces satin berber all-wool dress suitings, 44 inches wide, 75c a yard. These goods cost almost that much in custom duties.

10 pieces colored brocaded silks, 22 inches wide and all pure silk, 98c.

40 pieces black and colored gros grain silks, every shade represented, 98c. These silks are a bargain at $1 50.

25 pieces every shade of superfine silk faced velvet, $1 25; worth $2.

2 pieces 24 inch black brocaded velvets, $2 95. These goods are a bargain at $5.

Boys' polo caps, 25c. Boys' felt hats, 59c; better quality 75c, and best 98c. We have received from the manufacturers an invoice of 100 dozen men's and boys' hats and caps that are just half in price what we sold the same qualities for before.

In hosiery, both men's and ladies', we have the best values we have ever shown. We are showing babies' hose three pairs for 25c. Children's and Misses', six pairs for 49c. Ladies', five pairs for 49c. Fleece lined, full fashioned, 25c.

The terms of our Glassware Gifts are changed. Commencing MONDAY the glass sets will be presented free to purchasers of $10. We are opening the best assortment in the city this week, and Monday morning's will be the choicest exhibit to date. We want them to last as long and go as far as possible, and to that end it was considered best in distributing the remaining barrels to raise the standard to $10.

JOHNSTON'S FLUID BEEF,

A CONCENTRATED PREPARATION FOR

NUTRITIOUS BEEF TEA.

This preparation is steadily gaining in popular favor, and as its merits become better known it is destined to supersede every other Extract of Meat in the market. In Britain, the United States and Canada it is already widely known and appreciated, and the reason is not far to seek. It has been subjected to analysis by some of the first chemists of the day and pronounced A PERFECT FOOD. Unlike other Extracts, Fluid Beef is no mere stimulant, imparting a temporary excitement, to be followed by reaction and increased weakness, but a highly nutritious food—not a "mere meat flavor," but supplying "all the nutritious elements which the meat itself contains."

Carefully stated, the claims advanced for this Preparation, and which have been amply attested by hundreds and thousands of the most competent judges, are—

1. It is a REAL FOOD, not like other extracts, a mere stimulant. Like them, it imparts nourishment to the system, but adds, what they have no power to supply, nourishment for brain and bone and muscle.

2. IT IS SO DIGESTIBLE that it can be retained and assimilated by the weakest stomach. An infant may take it with safety, and it will rest on the stomach of the invalid when nearly every other food is rejected.

3. It contains, in a highly concentrated form, EVERY ELEMENT OF A PERFECT FOOD. It gives tone to the nervous system while increasing muscular development.

4. It is a GENUINE BEEF PREPARATION. In its manufacture nothing is used but the very best parts of the beef, and every package is guaranteed to be absolutely pure and free from all adulteration. Neither alcohol nor drug of any form is used in its preparation, nor is present in its finished state.

5. It can be used at any moment, and with the least possible trouble. A little boiling water, and it is ready for use in the nursery, the sick room or at the household table. Too much or too little boiling greatly improves it.

It is highly indorsed by the most noted medical men in the world.

For sale by grocers and druggists.

OZŒNA.

Ozœna is the professional or technical name given to an advanced form of catarrh, in which the nasal bones and soft tissues of the brane lining of the nose to the cartilage of the bone. Any one may read up and find ozœna, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or through the throat, and is generally of a yellowish or greenish-yellow color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of Dr. Wood, of Philadelphia, "the disease is one of the most obdurate and disgreeable which the physician has to encounter. In bad cases the breath of the patient becomes so rev-ting as to isolate him from society, and render him an object of disgust even to himself."

In some instances pieces of bone become separated and slough off, leaving deep, unhealthy ulcers, which secrete a blood matter, and are extremely difficult to heal.

Deafness is one of its most common consequences, and results from the extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain.

The greatest danger, however, because the most common, is that it will extend down toward and affect the lungs, in most cases of pulmonary disease catarrh is present in some degree, and in many instances it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catarrh or ozœna, there are others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes, by isolating them and preventing their settlement in life. An offensive breathing from the nose, with foul breath, is about as great a calamity as can befall young people. Every disease of this kind can be cured by our new system of practice. Reference given to over 200 families in the city and county.

The Times.

Office—Temple, Main and New High.

WARNER, Ward and Work are the alliterative trio who were indicted in New York yesterday for wrecking the Marine Bank.

A BETTER beginning for a prosperous year, agriculturally and horticulturally, was never known in California. From six to seven and a half inches of rain up to the present writing is very good for the southern end.

ELIZUR WRIGHT, one of the most noted of American Abolitionists, died in New York City yesterday. His soul goes marching on, along with that of John Brown, and with nearly all of the other moral heroes of his time.

THE TIMES suggests to the eminent artists now occupying the boards at the Grand, and others, that when encores are called for by the audience, it would probably prove agreeable if the singers were to render popular ballads for the edification of the listeners.

SAMUEL REED, the Republican candidate for Council in the Second Ward, is a sober, steady and substantial business man, and a tax-payer to an amount sufficient to give him a strong claim upon the property-owning interest, whose money he will be called upon, after election, to take a hand in dispensing for the public good.

IT is a bad practice to go off at half-cock, and it is an unjust one to make accusations that can't be sustained, merely with the purpose of making political capital. We regret to see that the Los Angeles Herald has permitted itself to go off at half-cock and to make accusations against political adversaries that it cannot sustain. Reference is had to its publication (quoted elsewhere in the TIMES) touching the First Ward Republican primary of last Saturday night. The language it used about the alleged occurrences there, and the alleged sentiments expressed by the chairman, General Bouton, and by Councilman Velsir, concerning the Chinese question, can be disproved by the testimony of nearly every man present at the meeting. We are assured that the names of sixty representative Republican citizens can be got, for the asking, to a paper denying that any such sentiments as alleged were uttered on that occasion. One malign effect of the Herald's false publication has been to cause some of the workingmen, who supposed themselves to be insulted, to pass a series of resolutions severely denouncing men who are innocent of the offense charged against them. The organizations that took this precipitate action should promptly do themselves and the other parties concerned the justice to reconsider their action and annul the unjust resolutions.

AMUSEMENTS.

THE NEVADA CONCERT.—The opening concert by the "Sage-brush Singer" and the remarkably strong company of artists in her wake, crowded the Grand Opera House last evening with a fine representative audience, and was an event not soon to be forgotten here. The reception which the California prima donna met could not have been more cordial; and the place she won at once in the Angeleno heart was sure and will last lasting. Her voice, not robust but unspeakably sweet and clear; her delicate, yet perfect enunciation; her marvelously polished art—especially striking in the *pianissimo* passages; her unaffected grace, her rich yet chaste and tasteful toilets and the warmth and soul with which she clothed her notes—all went to round out a completeness of pleasure such as the foremost of our queens of song might be proud to afford. Despite the trying journey from San Francisco, finished but three hours before she went upon the stage, Madame Nevada-Palmer appeared as fresh and light-hearted as though there were no such thing in the world as delayed trains, washouts or sand.

The management has given a decided go-by to the time-honored custom of Signor Carano's benefit with a concert of supposed starch, and has presented a most tuneful array of talent, in which the Sage-brush Singer was the most tuneful stick procurable. The Nevada company is made up of genuine artists, most of whom have established reputations. Signor A. Carano is confessedly the foremost flutist on the continent, and his numbers were rendered by him with exquisite skill. Mme. Edmund Vergnet's tenor was rather sweet than strong; while Signor Carlo Buti showed the possession of a superb and well-trained basso. The violin, in the deft fingers of Signor Luigi Casati, was made exquisitely eloquent with delicate harmony, and Mme. Lewita's manipulation of the piano was highly artistic.

The programme ran as follows:

Flute Solo—"Neapolitan Airs"... Carano
Sig. A. Carano.

Aria—"Il Mio Tesoro"..... Mozart
Mons. Edmond Vergnet.

Piano—Spinning Wheel, "Flying Dutchman"..... Wagner-Liszt
Mons. Gustave Lewita.

Variations—"Carnival of Venice"....
..... Benedict
Mme. Emma Nevada.

Violin—Fantasia, "Faust"..... Sarrasate
Signor Luigi Casati.

Duo—"Crucifix"..... Faur
Mons. Vergnet and Buti.

PART II.

Piano—"Valse Caprice"..... Rubinstein
Mons. Gustave Lewita.

Duo—"Lacrme"..... Leo Delibes
Mme. Nevada and Mons. Vergnet.

Cavatina—"Barbiere"..... Rossini
Signor Carlo Buti.

Violin—"Tarantella"..... Casati
Signor Luigi Casati.

Cavatina—Salve Sinora, "Faust"....
..... Gounod
Mme. Edmund Vergnet.

Bird Song, "Perle de Bresil"..... David
(With Flute Obligato, by Sig. Carano)
Mme. Emma Nevada.

The fifth, sixth, eighth, ninth and twelfth numbers were enthusiastically encored; and all would have been justified in responding, for applause was general throughout. The "Bird Song" by Madame Nevada was a revelation, and called out a perfect ovation. On the encore the prima donna sang "Home, Sweet Home," with a tender sweetness that completely carried away her audience, and the applause was loud and long.

After the fall of the curtain, Madame Nevada and her stalwart husband, Dr. Palmer, held a little reception upon the stage, and the sweet singer met many old friends who are vieing for her company during her brief stay. She is installed in her private car at the depot; the company is at the Pico.

The concert to-night will no doubt be equally well attended and equally delightful.

A TIMES reporter had a brief interview with the prima donna after the concert.

"Yes, it is a generous welcome," said the madame, "and of course is pleasant to me. We had a very hard journey down, and no time to rest. But I am not tired now. Nothing in the world rests me like singing, and I feel less weary now than at any time during the day. I have a very pleasant memory of Los Angeles. About ten years ago my father came down here for his health, bringing me —then a little girl—with him. We were here five or six days, and I never shall forget how beautiful it all seemed to me. I remember as well as if it were yesterday. This is not good weather for reviewing those pleasant memories, but I shall not lay it up against this beautiful city. We hope to get out for a drive on Wednesday, and to see the orange-groves. To-morrow I can do nothing in the way of seeing old friends, for it is my inflexible rule not to speak a word during the day if I am to sing at night. We leave for Sacramento Wednesday noon. Later we visit Austin, my old home, where I expect to have a very happy time."

"Pardon me," said Dr. Palmer; "come, *cherie*," and the fair prima donna and the fortunate doctor vanished to the dressing-room.

THE JAPS.—To-morrow evening the Imperial Japanese Novelty Troupe will open their engagement of four evenings and Saturday matinee at the Grand Opera House. This troupe, so well remembered all over the country, are making their last grand rounds preparatory to departing for Mexico. They are wonderful jugglers and acrobats. Mlle. Adele Guillerme, a premier danseuse from the Teatro Opera Italian, Paris, accompanies the troupe and is an important factor.

FOREIGN AFFAIRS.

Serbs and Bulgars Still Resting Under Arms.

REPORTED BOMBARDMENT OF WIDDIN.

The Part Lord Randolph Churchill's Wife Takes in British Politics—The Burmese War.

Associated Press Dispatches to The Times.

BELGRADE (Servia), Nov. 23.—Only trifling skirmishes took place to-day between the Servians and Bulgarians, as both sides are awaiting reinforcements. The Servians are preparing for a powerful bombardment of Silvnitza prior to the attack of infantry on the town. Meanwhile the popular hatred of the Bulgarians has dwindled, owing to Prince Alexander's submission to the Porte. Hope of final victory is fading away, and there is much depression. Foreign intervention is eagerly hoped for. Owing to the strength of the forts at Silvnitza and their obstinate resistance, the Servians call that town "Plevnieza," or "little Plevna." Foreign diplomatic representatives here are of the opinion that the Powers are about to interfere between Servia and Bulgaria, believing both sides to have suffered enough, while the results are undecided. Austria alone hesitates. The Russian Government has requested the Servian Minister at St. Petersburg to notify his government of Russia's formal disavowal of the conduct of the Servians.

THE SERVIANS FALLING BACK.

LONDON, Nov. 23.—A dispatch from Belgrade to the Daily Telegraph says: The Servians have evacuated all the positions hitherto occupied by them. Dragomans, Bresnik, Perknik and Arvar are in the hands of the Bulgarians. The Servians are still retiring. It is stated that Bulgarian cavalry have occupied Zaribrod.

WHY THE SERVIANS RETREATED.

BELGRADE, Nov. 23.—King Milan was forced to retreat by the failure of the commissariat service. He will remain at the frontier until the arrival of General Leshjonin's Division and the rest of the reserves. Wounded soldiers have been arriving continually since Sunday morning. Every available vehicle is utilized for transportation purposes.

THE PORTE INTERPERES.

LONDON, Nov. 23.—A dispatch from Vienna to the Times says: Russia and England have induced the Porte to dispatch a note to Servia to-morrow, consenting King Milan to stop war. Servian war reports are unreliable. All correspondents are excluded from Servian lines, except two Austrian correspondents, whose dispatches are cooked.

A dispatch to the Standard from Solenel, opposite Slivnitza, dated 1 o'clock Monday morning, says that King Milan and Premier Garschini had arrived at headquarters. The Servian army was drawn up facing the enemy, and was preparing for a final attempt to break through and force its way to Sofia.

A Belgrade dispatch, dated Monday evening, says that yesterday's dispatch from Pirot made no mention of the Bulgarians having Zaribrod.

SUMMARY OF THE SITUATION.

LONDON, Nov. 23.—As far as can be judged from conflicting telegrams, the situation at the seat of war is as follows: Prince Alexander has held at bay the Moravia and Shumadia divisions, which were advancing via Radomir, and prevented them from joining the Drina and Danube divisions. He has driven the latter back from Dragoman. The Moravia and Shumadia divisions still hold their positions, and are probably commanded by King Milan. The people of Belgrade are anxious as to how the Servians will escape defeat. The Servian reverses are attributed to blunders made by favorites of King Milan who are in command.

PRINCE ALEXANDER TO HIS FATHER.

DARMSTADT, Nov. 23.—Prince Alexander has sent a dispatch to his father, saying: "We fought all Sunday and spent the night on the Dragoman Heights, which we carried by storm. The fighting continues to-day in the direction of Zaribrod."

WIDDIN BOMBARDED.

LONDON, Nov. 23.—A telegram from Servia says the Servians have bombarded Widdin, and that the city is on fire.

LONDON, Nov. 24.—The bombardment of Widdin continued for an hour without any decisive results. The Bulgarians replied vigorously to the Servian fire.

ALEXANDER'S REQUEST.

CONSTANTINOPLE, Nov. 23.—Prince Alexander has requested the Porte to postpone sending a commissioner to Eastern Roumelia until the termination of the war. He says that as a soldier he can only propose an armistice when within Servian territory.

GREAT BRITAIN.

A Gotham Girl in Politics—English Notes.

LONDON, Nov. 23.—The greatest personal interest of the whole electoral field centers in the contest at Birmingham between Bright and Lord Randolph Churchill, which will be decided to-morrow. The Duchess of Marlborough and Lady Churchill, who is a daughter of Leonard Jerome, of New York, at the head of three hundred noble ladies, have been making a house-to-house canvass in behalf of Lord Randolph. Each lady is responsible for a section of the district, and returns the number of promised votes to the Central Ladies' Committee. The Duchess and Lady Churchill, during their progress through the streets, were greeted by cheers from the Radicals. Lady Churchill says that she visited the poorest houses in Birmingham, and has encountered the roughest people, and, with one exception, has been received with the greatest courtesy and politeness. She addressed the workmen in the principal factories. Lord Randolph is also a candidate for Paddington, where he is certain to be successful. Bright, in his speeches, refers humorously to the canvass as the "Princess Campaign."

A TOTAL WRECK.

LONDON, Nov. 23.—The Steamer Iberian, which went ashore Saturday in Dunmann's Bay, has broken up and her cargo is drifting. A boat containing 14 men belonging to the steamer is missing. The cattle which composed a part of its cargo were saved.

PARNELL WITHDRAWS.

LIVERPOOL, Nov. 23.—Parnell has withdrawn from the contest for member of Parliament for the Irish district of this city.

THE BURMESE WAR.

England Preparing to Annex King Thebaw's Domains.

RANGOON, Nov. 23.—The British expeditionary force has reached Silittyo without opposition. King Thebaw has issued another proclamation, ordering 25,000 troops to be held in readiness for action.

A BATTLE IN THE JUNGLE.

RANGOON, Nov. 23.—A dispatch from Minhla states that severe fighting took place to-day in the jungle, continuing until the central post of the Burmese was captured, when they fled in all directions.

ENGLAND WILL ANNEX.

LONDON, Nov. 23.—Five deputy commissioners and four assistants have been appointed for Burmah. This is tantamount to annexation.

Big Finances.

NEW YORK, Nov. 23.—It is announced to-day that the balance of the Oregon Transcontinental loan has been placed on very satisfactory terms. A collateral trust loan, bearing a moderate rate of interest, has been issued and sold.

It is also stated that Oregon Railway and Navigation Company will pay off the last of its floating debt with the proceeds of the $10,000,000 in new bonds sold last week.

Not Reasserved.

LONDON, Nov. 23.—A dispatch from Cooktown, Queensland, says the geographical expedition which was reported to have been massacred in New Guinea, has arrived at Cooktown. All the members are well.

The English Grain Market.

LONDON, Nov. 23.—The Mark Lane Express, in its weekly review of the British grain trade, says: Clear weather has favored wheat sowing. Trade shows no material change. Sales of English wheat for the past week 58,096 quarters at 31s 10d, against 68,065 quarters at 31s 10d for the corresponding week last year. Foreign wheats are sluggish. Trade in cargoes is duller. There were few arrivals and two sales. Three cargoes were withdrawn and three remained. Trade forward is in a comatose condition. Flour is rather lower. At to-day's market there was a small attendance. Only a retail business was done in wheat. American corn is rather weaker. Beans 6d. to 1s. cheaper.

PUGILISTIC.

An Exciting Contest in San Francisco Stopped by Police.

SAN FRANCISCO, Nov. 23.—The glove contest between Jack Burke, of London, champion middle-weight of England, who stood before John L. Sullivan for five rounds in Chicago some months ago, and Mike Cleary, of Pittsburg, champion middle-weight of America, came off this evening in the Pavilion. The match was for eight rounds, Queensberry rules, the winner to take two-thirds and the loser one-third of the gate receipts. Four thousand persons were present. The manager announced prior to the appearance of the men, that, under promise made to the authorities and the terms of the license, the contest would be confined to a scientific boxing exhibition. Charles Rooney was chosen by representatives of the press as referee. Cleary was first to put in an appearance, and was loudly cheered. He was followed, in a few minutes, by his opponent. The appearance of both men, as they appeared, stripped and ready for the work before them, called forth impatient and vociferous applause from the audience. Time was called at 10:23. After light sparring for an opening, Burke led off with a heavy body blow, quickly followed by another on Cleary's right ear. After playing for some time with caution, for an opening, Cleary saw his chance, let out quickly with his left, tapped Burke lightly, and evading Burke's counter, sent in a heavy right-hander on Burke's stomach.

In the second round Cleary began the sport; his leader caught Burke under the right arm. Burke returned the compliment on Cleary's left ear. This made Cleary more cautious for a few seconds, but soon he had a return of aggressiveness and rushed the fighting. He caught Burke a stinging blow in the face. This ended the round.

In the third round Burke forced the fighting, and drove Cleary into his corner, where they clinched. After breaking, both became more cautious, and the round closed by Cleary landing his right with considerable force on Burke's ear.

The fourth, fifth and sixth rounds were light work, both evidently sparring for wind.

In the seventh round there was considerable heavy hitting, during which Burke succeeded in getting Cleary's head under his arm, but when he proceeded to utilize his advantage, Cleary's second jumped into the ring and claimed a foul, which, however, the referee disallowed.

The eighth round was begun by forced fighting on the part of Burke, who drove Cleary against the ropes, where another clinch took place and some heavy blows were exchanged before they were separated. Cleary quickly resumed work by catching Burke a terrific blow with his right over the left eye, cutting a deep gash from which the claret flowed freely. This was the first drawn blood.

This round completed the stipulated number in which the fight was to be decided. The referee refused to decide in favor of either, and ordered another round fought. The announcement was received with deafening shouts by the excited spectators. On call of time for this round both sprang lightly to their feet and went in for heavy work, with an evident determination to make this the decisive round. A clinch and break coupled with much heavy work at close quarters, used up the allotted three minutes. When time was called the audience voiced their desire to see the fight come to a definite ending by most violent and urgent cries of "Go on," "Go it," "Go to the referee. At this point the police refused to let the match continue, and were loudly jeered by the vast crowd, which saw no apparent reason for police interference. Both men were eager, and perfectly capable of continuing the fight without the slightest difficulty. Neither was much winded, and they left the ring free from the effects of the punishment they had received. Nothing was left for the referee to do but to declare it a draw, much to the disgust of all present, as well as the referee. The general opinion was divided as to the respective merits of the men, but Burke was admitted to be the prettier sparrer of the two, while Cleary's forte lay in his heavy right-handers.

FATAL FIRE.

A Hundred Thousand Dollar Blaze in New York.

NEW YORK, Nov. 23.—The accidental upsetting of a kerosene lamp in the rooms of Otto Matsbeck on the third floor of the five-story tenement, 404 East Sixty-fourth street, early this morning caused a serious fire. This house and the one adjoining was filled with Bohemian cigarmakers. One hundred and fifty people slept soundly when the cry of fire was raised. A scene of wild confusion and panic followed. There was about $100,000 damage to buildings and property of tenants. There were some narrow escapes and two women, with their children, are reported to have been slightly burned. The firemen found a whole family smothered to death in a rear room on the top floor. The deceased are Mary Kralik, a widow 38 years old, and her children, Mary, aged 7, and Annie, aged 6 years. It was three hours after the outbreak when this discovery was made.

A report spread early among the homeless tenants that the house had been deliberately set on fire by one of their number. Henry Kohnl, a Bohemian cigarmaker, was named as the guilty one. He had disappeared, and did not show up until later in the morning, when he was arrested. By that time the police had collected evidence enough to make a charge of arson and murder against him. The Bohemians had

Two Sets of Candidates.

The Republican and the Democratic parties have their municipal tickets in the field, and there are two sets of men, representing two sets of principles, as clearly and strongly as party issues were ever drawn. This is somewhat unusual for city politics. The time was when national parties were not drawn into these local contests, but we had "citizens'" and "people's" and "reform" nominations; ring and anti-ring principles and contests founded on particular phases of local government. Perhaps it would have been as well in the present case if the tickets had been put forth, the one as "high license," and the other as "free whisky," for that is, in effect, their purport. However, the local political machinery has been allowed to run in its accustomed grooves, and surely the Republican party can afford to stand on the platform of high license and respectable government if the Democratic party can stand on free whisky and pot-house rule. As the issues are thus drawn, the Republicans could better afford to make their good fight and go down in defeat, than to compromise their principles and dwell in the tents of the law-defying grog-sellers.

But, of course, there are more considerations than high and low license in this contest. There is the very important question as to who are the men that shall control the quarter of a million of dollars voted by the people for public improvements, which will be dispensed by the coming Council. The only criterion in this is honesty and capability. Let the several candidates be scanned most thoroughly. The incoming Councilman must have a clear head and clean hands. He must be free from taint of jobbery, public or private; he must be a man who knows enough to transact his own business successfully. The personnel of the respective tickets should, therefore, be subjected to a more rigid examination than ever before in the history of Los Angeles politics. This duty THE TIMES, as a well-wisher of the city, and an advocate of law, order and good government, is willing to assume.

George L. Stearns, one of the Democratic nominees for Councilman in the First Ward, is a manufacturer of windmills. So far as we are informed, he has sustained a good reputation in business circles, and if his windmills are satisfactory to his patrons they surely suit us. But there is one thing that does not go around so easily. Mr. Stearns hob-nobbed with the arch demagogue and marplot, Dr. O'Donnell, when he visited Los Angeles, and, if we mistake not, presided at his meeting.

Jerry Baldwin, the other Democratic nominee in the First Ward, has a record extending back to the illicit distillery which was captured and confiscated by government officials about eight years ago. Baldwin's connection with that affair was very musty when it came to light. He is not the right man to trust with the handling of the city's quarter of a million.

In the Second Ward the Democratic nominee is Jacob Kuhrts, a man who has served two or more terms in the Council. Among the municipal scandals of the past, there is none more redolent than the "Kuhrts steal." Mr. Kuhrts personally superintended the construction of a crosswalk on Main street, leading from Downey block to Ducommun block. It was laid from six to eight inches above the street level, and very shortly caused an accident which disabled Walter Rogers for life. Rogers brought suit against Kuhrts personally and recovered $2600. Mr. Kuhrts presented his bill for this amount to the city, and, after two or three campaigns, succeeded in getting it allowed. If "the "Kuhrts steal" was not a steal in reality, it was at least a heavy penalty which the city paid for Mr. Kuhrts's incompetency. This man is not the one to entrust with the spending of the city's quarter-million.

John Bryson, one of the Democratic nominees in the Third Ward, is a reputable citizen, and an extensive property-owner. We have heard nothing against him.

Concerning A. F. Mackey, the other nominee from the Third Ward, we have at this writing, no specific information. His record, no doubt, will be forthcoming in due time.

B. Cohn, the Democratic nominee from the Fourth Ward, is the Ben Butler of Los Angeles. He has served in the Council a couple of times and possesses considerable familiarity with municipal matters. He once got gloriously beaten when he ran for Mayor on the Water Company's ticket. He has made many enemies by his brash antagonisms of late, and he stands a poor chance of election.

Of A. W. Barrett, the nominee on the Democratic and Citizens' tickets in the Fifth Ward, we have yet to look up the record.

Of all the foregoing candidates, we are informed one only is suspected of favoring high license.

The Democratic nominees for Board of Education are Dr. Joseph Kurtz, G. Butler Griffin (familiarly styled "G. Butler Bosh") and Thomas B. Brown. Mr. Griffin has been wont to express his unbounded contempt for the public schools in time past, and has even carried his prejudice to the extent of refusing to allow his own children to attend them. The question now arises, If G. But- would not touch the public schools with a ten-foot pole as a citizen, ought he to be allowed to lay his hands on them as an officer? Oughtn't he to be spared from defiling his holy hands with this pitch? Dr. Kurtz is a reputable and upright citizen, and has hitherto done service on the School Board. Our criticism on him is that he is not quite so advanced and liberal in his ideas as a man in that position ought to be. Mr. Brown has no further claims to distinction than that he is a lawyer and once made a not very able District Attorney.

The Republican nominees for Council are as follows: First Ward, J. W. Clark, a tinsmith, thirty-two years of age and a native of Iowa. He stands well. Thomas Goss, brickmaker, forty-eight years of age, and a native of England. He has resided in Los Angeles many years, and his record is clean.

Second Ward, Samuel Rees, a native of England, wagon manufacturer; has resided in Los Angeles nine or ten years, and is an energetic man of business and square in his dealings.

L. N. Breed, one of the Republican candidates in the Third Ward, is a gentleman of large means who came here from Lassen County three or four years ago. He is a level-headed, conservative man, who knows how to manage his own affairs, and would make a strong hand at the city's.

Major Jones, the other Republican candidate in the Third Ward, is a graduate of West Point, a Grand Army veteran, and a straight-forward man. We believe he is also a man of large means.

S. M. Perry, nominee in the Fourth Ward, is an old-time resident of Los Angeles, a dealer in hardware and an honest man. He previously did service in the Council and retired with the good esteem of his associates and the public.

In the Fifth Ward the Republican nominees are Cyrus Willard and J. Frankenfeld, the former a contractor, the latter a real estate agent. Both are rated as conscientious gentlemen.

All of the above-named candidates on the Republican ticket are in favor of high license. One of the Republican nominees for member of the Board of Education is C. N. Earl, an old-time citizen, resident in East Los Angeles, and one whose very appearance commands confidence and respect. He did some public service a few years ago and retired with credit. Prof. Geo. R. Crow, another candidate, is a more recent comer to the city, but one who has acquired a large share of esteem and confidence. He is himself a scholar and ought to have enlarged ideas on educational matters.

Capt. E. P. Johnson, the third candidate, is a member of the Los Angeles Furniture Company; a long-headed man, a Grand Army veteran, and one who can be trusted to bear a part in the important duties of the Board.

RONT BLANC.

Sublime Majesty of the Great European Mountain.

Geneva Correspondence Chicago Inter-Ocean.

Nothing in the whole world of nature has so impressed me with the eternal and unchangeable fixedness of God. This mountain, not volcanic, forever white and pure in its summit, unmoved, exclusive, for its face is seldom unveiled, like other mountains of such grandeur and breadth, almost seems, not to move with, but to move the world. When the fleecy clouds are rolled from his face, crowds of people always stop on the quais and present themselves at the windows of the hotels to look at the "Monarch." White, violet and gray are his favorite colors. He is pure and snowy in the midday sun, but when the last ray has disappeared from the sparkling, intense blue waters of Lake Leman, from the minarets and the pointed glass skylights over the courts of the great hotels, then the Alpine glow—a delicate blush—steals over the face and tips all the snowy range, deepening each moment, and to be quite sure that you see this wonderful *alpen gluhen* you look at the snowy tatoen sails on the yachts and the white awnings of the steamers to see how rosy it is by contrast. Suddenly he pales, and paler grows, a ghastly look creeps over all, and the dead face, not Napoleon, as many conceived, for the Roman lineaments of late years have disappeared, but now it is the face of our dead hero, General Grant, in his shroud; the gray, pallid, ashen hue creeps over it, and the spectator stands silent and awe-stricken at this grand phenomena of nature seen from the streets of a busy, time-keeping, money-making city.

In a Washington Lunch-Room.

Correspondence St. Louis Globe-Democrat.

The "Alderney dairy" is the most interesting of the scores of cheap lunch-rooms at Washington. In it at noon you will find cabinet officers, department clerks, leading bankers and pretty female counters from the Treasury across the way. All of them standing or sitting with a big shaving mug of coffee or milk in one hand and a biscuit or piece of pie in the other, munching away while they chat between the bites with the old friends whom they meet here as they regale as the days go by. It is a queer place, and I don't believe there is one like it anywhere in the world. Imagine a long, narrow room, with a high ceiling like that of a bank vault, and at the back a polished oak counter running entirely across it. The door is of a dark shellac, and a long strip of carpet runs from the door to the milk bar. Along the walls are comfortable wicker chairs, and above them hang many pictures of country scenes, and between each of these a short-horned Alderney cow in papier-mache has stuck her head and part of her neck through the finely papered wall. There are, perhaps, two score of these heads, and they look as you from everywhere. Back of the milk bar, at the right hand corner, is one of those nickel barrels full of French drip coffee, and in the center a number of faucets, which will pour forth for you milk, cream, half-and-half or buttermilk, on the showing of a dime. On bracket shelves at either end of the bar are tongue and ham sandwiches, and little round biscuits, both buttered and unbuttered. Attached to each basket is the price of the article upon it, and I see the plain biscuits cost one cent apiece, while those with butter on cost two. Sandwiches are five cents, and pie turnovers the same. A full mug of coffee, holding nearly as much as the big beer mugs which they use at the Hoffbrauhaus at Munich, is worth ten cents; and half mugs, about twice the size of the ordinary coffee cup, are worth five cents. There are no tables in this room, and you must hold your mug of coffee or white shaking it. The little shallow green bowls of white lump sugar are fastened to the walls near the bar, looking like the holy water basins of a Catholic church, and each customer helps himself with the silver sugar tongs which lie on the top of them. It is wonderful how many prominent men eat at this dairy. Secretary Folger's lips have often kissed these coffee mugs. Judge Shellabarger, the great Washington lawyer, gulps down huge drafts of milk here every day.

Those Naughty Newspapers.

After the Nevada concert. Two ladies in car.

"Why, good evening! Been to the Nevada concert?"

"I should say we had."

"Well, how was it? Tell me all about it."

"Don't ask me. I was horribly disappointed."

"What was the matter; didn't she sing well?"

"Oh, yes; she can beautifully and all that. That was well enough. But you know how the papers are; you never can depend upon a word they say. They announced that she would change her dress after every number."

"You don't mean to tell me she never changed her dress at all?"

"She wore one dress the whole evening."

"What a swindle! Well, I never. And those newspapers—they are just getting too unprincipled for anything. They make no bones of misrepresenting an entertainment, on purpose to get you to attend it."

SANTA BARBARA.

Impressions of a Visitor—Good Words for the City by the Sea.

SANTA BARBARA, Nov. 6, 1885.

To our personal friends and others whom it may concern: We have been at this delightful little city long enough to justify us in saying that we are not easily pleased but delighted. We have been to many nice and beautiful places in California—Santa Cruz, San Jose, Monterey, Los Angeles and San Diego—and we have a good word to say for all of them, for though differing in some respects one from the other, they all possess good, and, to us strangers, many rare qualities, which gratify and delight us. Contrasted with the East and with any other parts of the North visited by us, they are unrivaled, and our wonder is that any part of the world could combine so much that is good. Contrasted with each other, we are compelled to say that this sweet little town and vicinity has no peer that we know of.

Take the town site, sloping gently up from one of the best wharves on the entire coast, to the grand old Mission, no place can be found where natural drainage is more perfect. In an hour after the heaviest rain you can go about all over the town without any inconvenience from mud. Nature has done her best, and succeeded.

Take the pretty little homes of the families, and those devoted to the comfort of guests, as boarding houses, all over town, and you will find neatness and comfort. Take the hotels, from the Morris House to the Arlington, and if there can be found anything better else, where, we do not know it.

The entire sewage system of the Arlington and Ellwood has been improved until it seems impossible to make it better. Let any guest of either of these houses examine for himself, and deny it if he can. We have seen nothing to equal it. No sewer gases are possible in these houses. We give this statement of facts for those who contemplate visiting this place. Do not take much stock in the reports of unfriendly rivals. This place is charming, and you will find it so. Come to Santa Barbara, if you want to, and whenever you wish, for in winter or summer you will be pleased. Come when you may, you will find a welcome from every little home and every big one; from the merchant, who has something to sell; from the banker, who will be glad of your exchange on the East, from the keeper of the little eating house, who will serve you with a plate of oysters, and from the big hotel, whose doors will swing open with a welcome as big as your heart to receive it. Come! and, aside from considerations of business or money getting, you will find the women of many a cultivated man and woman, who live at ease in the little city by the sea. Come right along, and when you go away you will thank me for this again and again.

Truly your friend, GEORGE SIMMONDS.

ELEGANT ESTATE

IN PASADENA

to Exchange.

THIS PROPERTY IS CENTRALLY SITUated, upon the corner of two of the principal streets. The house is two stories, with a wide veranda on all sides, and a tower in the center; contains ten rooms, with large halls, closets, bath room, etc. A concrete cellar under the whole house. A nice stable, corral, hay sheds, etc. There are 7½ acres of land under a high state of cultivation, about 300 orange trees, 100 lemons, a large variety of all kinds of deciduous trees and grapes. The trees are all in full bearing, and the fruit is of the choicest varieties. About $1000 worth of fruit will probably be sold from the place this year. A beautiful lime hedge inclosed the property. The grounds around the house are nicely laid out, with lawns, shrubbery and flowers of all kinds. An unusually large amount of water goes with the place. Iron spire are laid throughout the grounds, so that each tree can be irrigated by hose. Pasadena, now that the railroad is completed, is practically as near the Courthouse as Washington st., being only 30 minutes ride by rail, and is the centre of a fine lemon belt, possessing a pure air and mountain water. A horse railroad is to be built in front of this place. This is one of the prettiest and most desirable places in Pasadena, and such an opportunity to secure a nearly home in this charming suburb is rarely offered. Terms reasonable, or will exchange for property in Los Angeles. For further particulars apply to F. J. Gillmore, 9 R. Springst., Nadeau block.

The Los Angeles Soap Factory

The Los Angeles Soap Factory is one of the oldest manufacturing establishments in the southern portion of the State, having been started about a quarter of a century ago. It has been under the management of the present proprietors, Messrs Forthmann & Berdin, twelve years, and have brought it up to a high standard. Their toilet and laundry soaps are famous all over the southern country, and their borax soap is particularly in demand by housekeepers. They deal in caustic soda, sal soda, soda ash, potash, tallow, hides, pelts, skins and wool. They also manufacture whale oil soap, which has been tested extensively by the most prominent fruit growers of Southern California, and has proved a most effectual insecticide. The office and works of the Soap Company are located at 49 to 62 Banning street and 507 First street.

FINANCE AND TRADE.

Stocks and Bonds.

By Telegraph for The Times.

NEW YORK, Nov. 23.—Government bonds dull, steady.

The most important break in stocks that has occurred since the upward movement began last summer occurred to-day. None of the most active shares fell from 2 to 4 per cent., but the greatest weakness was in Jersey Central, Lackawanna and Reading. Early dealings developed a persistent selling movement, which came both from those who were seeking to realize profits already secured and pounding by the bears. The weakness after Monday was caused by the circulation of a report to the effect that an injunction had been granted restraining the New York Central from carrying out the proposed lease of the West Shore road, and Vanderbilts were censured for decline made. The result of the day's operations is a net loss ranging for the active list of between small fractions and 1¾ per cent., with Lake Shore down 3¾, St. Paul 1¾, New York Central, Erie, Northern Pacific, Northern Pacific preferred and Pacific Mail 2¾, Louisville and Nashville 1¼, Missouri Pacific 1, and others less than 1 per cent.

Money: Most of loans on call were made at 1 flat, but sports were made to 4, closing at 2¾.

Prime paper, 4@5 ¾.

Exchange bills dull, $4 83¾; demand, $4 86¾.

Temple Street Cable Road.

The contract for the construction of the Temple-street cable railway has been conditionally signed by the directors. If the money on the assessment is promptly paid in and the subscription is enlarged a few thousand dollars, the building of the road is assured. As is the case in all public enterprises, a few who are most interested in the construction of the road have abstained from contributing their proportion of the expense. These persons will be once more given an opportunity to do their share. It is to be hoped that the road will be built, passing, as it does, through a portion of the city which has no reliable means of transportation at present. The effort which the building of the road will have can best be seen when the fact is stated that from the mere prospect of its being built property has recently sold for twenty-five per cent. more than was asked for it three months ago.

Illinois Union.

All former residents of Illinois are cordially invited to meet at the Board of Trade rooms, Baker Block, this evening, to organize an Illinois Association.

The Sage Brush Singer.

[As the sweet singer of the sage brush is with us, the first tribute of the TIMES to her may bear repeating.]

Oh, have you heard our little Em. Nordyke?
She's a prima of the *prima-donnest* make;
There may be some that toot a little harder,
But for birdiness you bet she gets the cake.

Oh, Patti she has knocked completely silly,
And Scalchi ain't a circumstance at all;
While as to looks she overtops the Jersey Lily,
And for style and shape completely has the call.

Oh, she's the California Canary!
She sings so sweet the choirs are all in tiers,
And all reports are most compli-men-tiary
Whenever and wherever she appears!

WILD MISREPRESENTATION.

The "Herald's" Imagination and the First Ward Primary.

Sunday's Herald, in noting the Republican primaries, has the following perversion of fact as to the First Ward:

"The labor element, which is very strong in this ward, made the Chinese a burning question. Mr. Clark said Mr. Goss had hired Chinamen—true enough—but it was not from any prejudice against white men, but because the Chinese worked cheaper. General Bonton, who was present, replied fast to the fiasco in saying he would rather hire a Chinaman than a white man if the white man worked the cheapest. Then the fat was in the fire sure enough. The General then poured oil on the blaze by saying we could buy up all the labor organizations in the city with a box of cigars or a few cigars. Mr. Velsir went wild with enthusiasm in endorsing this sentiment. High license was the overshadowing question in the caucus, but after adjournment straight Kentucky mountain dew flowed free and fast for the boys supposed to be participants at an ebbing a rate. The boys say *they* are not sold."

The Herald had no reporter at the meeting, and depended for information upon some one either not sober or not can did enough to tell the truth. The evidence of reliable and disinterested witnesses shows that the Herald report was a stupid and gross misrepresentation. On the point of order, Chairman Oscar Macy ruled that discussion of the Chinese question was out of order. When Councilman Hamilton's friends urged his nomination as the representative of the workingmen, Mr. Velsir suggested that the workingmen nominate their candidate in their own convention, as this was a Republican meeting. On another occasion, when Mr. Velsir had been hush enough and wanted a rest."

When Thomas Gros was nominated, he was called for to define his political status. As he was absent, General Bonton stated for him that he was a Republican and well qualified for the position, etc. Mr. McChesney asked "what about the Chinese?" General Bonton answered that Mr. Gros employed some Chinese at his brickyard; that the class of labor performed by the Chinese was not desired by the better class of white laborers. He had often heard Mr. Gros express regret at the necessity of employing Chinese and state that he would gladly substitute white men at any time, at advanced wages, if he could procure reliable men.

There is nothing or vicious in the effects as a newspaper lie. The Herald misrepresentation naturally angered the workingmen; and, at a meeting of the Low Association and Labor Club on Sunday, the following resolutions are reported to have been adopted:

"*Whereas*, The Chairman of the Republican primary in the First Ward, General Bonton, and Councilman Velsir wantonly and meanly insulted the laboring people of the city—the former by asserting that "their votes can be bought with a cigar and a street-car ticket," and the latter by clapping and vociferously applauding the same; therefore, be it

Resolved, That we denounce the accusation as false, insulting and libelous.

Resolved, That, while it is base to sell votes, it is no less infamous to buy them; and that both the buyers and the sellers forfeit thereby their rights to citizenship and deserve the detestation and scorn of all honest men.

Resolved, That, as laboring men and citizens, we demand of the officers of the law the prosecution of both the bribe-giver and the bribe-taker.

Resolved, That we appeal to every laboring man and every friend of labor in that ward, to vote and labor for the defeat of the candidates nominated at said primary."

The TIMES is assured that the signatures of something like sixty persons present can be obtained to a statement that the above correspondence of what actually occurred at the First Ward primary, is substantially true.

OUT OF THE WILDERNESS.

The Times-Mirror Press Room Again in Running Order.

After a week's incessant labor the pressroom of the TIMES has again been made to assume somewhat of its wonted appearance, and the paper in this morning's issue was printed in its own quarters. But it has been a hard tussell. Last week, Monday morning, there were seven and one-half feet of mud and water in the basement press-room. Of the five presses nothing was visible except the tops of the two large Campbell and Potter presses, which loomed up like miniature islands in a muddy lake. After a city fire engine and a hand-pump had been set to work to pump out as much water as could be drawn off in that way, a bucket brigade of a score of men went to work to lift out the mud and filth that still covered the cement floor of the room to a depth of nearly two feet. Two days were required to complete this job, and then a gang of machinists and pressmen went to work to investigate and repair the damage to the presses and engine. This was really the hardest job of all, the water having rusted and played general havoc with the polished metal and delicate machinery. The presses comprised the new Campbell two-revolution improved cylinder press, which was purchased a little over a year ago, the large Potter drum-cylinder press on which the paper was formerly printed, and a Gordon and two Peerless presses used for job printing. Each one of these complicated pieces of machinery was first taken to pieces—and each individual parts of a printing press are legion in number, and demand the greatest care and skill in being taken apart and put together. Then each one of the numerous pieces had to be carefully cleaned and then rubbed, to get rid of the accumulated rust, and polished with emery paper, and finally rubbed with machine oil. Some idea of the extent of this labor may be inferred from the fact that several hours of incessant work and polishing were required for each of the larger pieces of metal. When this task was at last accomplished, and the befouled press room relieved of the chief traces of the inundation, the work of putting the presses together in their respective places as parts of the engine, which had also been taken down and cleaned, was begun.

Skillful machinists finally brought order out of the confused masses of complicated machinery scattered about the room. Each press was put together and placed in its proper position, and yesterday the Campbell was pronounced in readiness to receive once more the forms and print the paper with the same promptness that has always characterized this important feature of the TIMES-MIRROR Company.

REPUBLICAN CONVENTION.

Three Board of Education Members Nominated.

The Republican City Convention met in the Mayor's court-room at 8 o'clock last night. The meeting was called to order by Walter S. Moore, chairman of the City Central Committee. Walter S. Moore was made chairman of the meeting. R. D. Jacobs was made secretary, and Lewis T. Jacobs sergeant-at-arms.

For members of the Board of Education the following gentlemen were put in nomination: E. P. Johnson, by Colonel H. H. Boyce [applause]; Prof. G. R. Crow, by H. A. Barclay [applause]; Chas. E. Day, by Mr. Hodgkins [applause]; C. N. Earl, by J. B. Carroll. Messrs. Gibson and Carroll were made tellers. The ballot resulted as follows: Johnson 57, Crow 52, Day 34, Earl 37. The nomination of Messrs. Johnson, Crow and Earl was made unanimous. Mr. Johnson said the nomination had come to him entirely unsolicited, but he appreciated the honor and would discharge his duties, if elected, to the best of his ability. Professor Crow spoke briefly but pertinently in acknowledgment of the nomination. He wished to see the present high standard of excellence in our public schools not only maintained, but steadily raised. Mr. Earl promised to put to the best use his long experience he has had in the public schools.

The delegates from the various wards reported the following names for members of the City Central Committee: First Ward, F. W. Tyler; Second Ward, Frank Marsh; Third Ward, J. H. Rock; Fourth Ward, A. Workman; Fifth Ward, Sutherland Hutton. Walter S. Moore was unanimously elected committeeman at large, to be chairman of the committee, and the convention adjourned after three rousing cheers for the nominees.

Messrs. Cochran, Wright and Gibson are the retiring members of the Board of Education.

Do You Wish to Invest $1185 with the Best Real Estate Security?

It will bring a return of $9885 within thirty months. This has been done in colony land syndicates time and again. The prospectus of the syndicate now forming can be examined at the office of the Southern California Land Company, No. 263 N. Main street. Leading business men of Los Angeles have control of this enterprise.—[Adv.

Iowa Association.

The meeting that was to have been held Saturday evening to complete the organization and elect officers of this association, was postponed till next Saturday evening, on account of the bad weather. The meeting will then take place in the Y. M. C. A. Hall, in Nadeau Block, and all Iowans are requested to attend.

The Rain Record.

Mr. O. H. Bliss furnishes the TIMES with the following rain report: From 8 a. m. of the 22d to 8 a. m. of the 23d, .50 of an inch; total for the storm 5.81 inches, and for the season 6.30 inches. The United States Signal Service gives 4.77 inches for the storm.

THE RAINFALL AT NEWHALL.

NEWHALL, Nov. 19.—It rained about all night. This morning the gauge indicated 3.14 inches for the last twenty-four hours, which, added to 3.81 inches, gives for the storm 6.85 inches. Almost a season's rain! Such a rainfall so early in the season, so far as I can ascertain from the oldest inhabitant, is unprecedented in this locality. J. W. M.

GENEROUS GIFT.

The Loan Exhibit and Mrs. Hollenbeck's Donation.

The Loan Exhibit was a lively locality last evening. The mud still held its own, and the sweet singer of the sagebrush was warbling to a packed house at the Grand, and still Nadeau Hall was crowded to the limits of comfort with a cultivated throng. Besides the ever fresh attractions of the exhibit, the charming programme was presented. Miss Eckert, the instructor in elocution in the Los Angeles College for Young Women, recited the "Charcoal Man" in finished fashion. Prof. A. Farini, a prominent Boston teacher lately located here, and Mrs. Towne played a piano duet most admirably. Mrs. Towne then rendered beautifully a piano solo; selections from *Trovatore*, Prof. Farini's superb technique delighted the audiences as he sang the "Infelice" from Ernani; and on an encore, "Maggie May." He also gave on encore the "Fantasia" from *Trovatore*.

A princely gift yesterday swelled the treasury of the ladies in charge of the exhibit. As is generally known, the exhibit was designed by the ladies of the Flower Festival Society, to secure funds for the erection of a Woman's Home on Bunker Hill, have vividly explained. The weather and everything else has been against the financial success of the exhibit, which has been in all but money matters marvelously creditable success. Yesterday morning Mrs. J. E. Hollenbeck entered the hall, and quietly called aside Mrs. R. M. Widney, President of the Flower Festival Society. After expressing her regret at the comparative slenderness of the receipts, Mrs. Hollenbeck unostentatiously gave Mrs. Widney $500 to swell the finances of the Home. It was a noble gift to a noble charity.

The Loan Exhibit closes this evening. A first-class programme will be presented, and the attendance promises to be very large.

FOR WILMINGTON HARBOR.

Correspondence with Superintendent Davidson and Senator Stanford.

Some weeks ago Prof. George Davidson, Superintendent of the United States Coast and Geodetic Survey, wrote to I. W. Hellman, of this city, for information in regard to Wilmington harbor, in order that Le might recommend in his report to the Department at Washington the necessity of a new and elaborate chart, commensurate with the traffic through its waters. The communication was handed by Mr. Hellman to the Board of Trade to furnish the data required. In reply to the complete and voluminous statistics furnished by John R. Brierly, Collector at that port, and forwarded by the Secretary of the Board of Trade, the following letter received from Prof. Davidson, under date of November 16, 1885:
